Message From The Executive Director

-Tang Meng Loon

Dear Members,

As we enter the second half of 2026, I am pleased to share some of the latest developments and activities at Horizon Hills Golf & Country Club.

We are delighted to welcome Gading Raya Golf Club in Indonesia as our newest Reciprocal Partner, giving our members another opportunity to enjoy reciprocal golfing privileges and experience a new golfing destination in Indonesia.

Within the Club, we have continued to improve our facilities and sporting offerings. Our newly refurbished Gym provides members with a refreshed space for their fitness needs, while our sports offerings now include boxing, Muay Thai and kickboxing, with Personal Trainers also available for those looking for more individualised training.

Our dining options have also been expanded with the introduction of our new Japanese restaurant, offering both Yakiniku and Teishoku menus for members, families and guests to enjoy.

On the golf course, our maintenance team continues to attend to various improvement and rectification works to maintain the course and playing conditions for our members and guests.

Beyond golf, the HHGCC 2026 Tennis Championship brought our tennis community together for some friendly competition and an enjoyable day of sport. We look forward to continuing to offer more opportunities for members to stay active and enjoy the Club.

Thank you for your continued support of Horizon Hills Golf & Country Club. We look forward to welcoming you and your families in the months ahead. I would like to extend my warmest wishes to all our members for a Happy Merdeka, Happy Malaysia Day, Happy Deepavali, Merry Christmas and a Happy New Year.

Elevating the Course, Enhancing the Experience

As part of Horizon Hills Golf & Country Club's ongoing commitment to enhancing course quality and playing conditions, a comprehensive green renovation programme featuring Zoysia Lynkz grass is being progressively carried out across selected greens. The initiative commenced with Green 19 (Gamble Hole) in December 2025, followed by Green 17, the putting green, Green 3, and other key areas throughout 2026.

Each renovation is carefully executed through a meticulous process, beginning with the removal of existing turf and old sand, followed by root barrier installation, fresh sand placement, and precision levelling and shaping. Organic treatment and starter fertiliser are applied before the Zoysia Lynkz sod is laid using a close-turfing technique, ensuring a carefully prepared foundation for healthy turf establishment and a refined putting surface.

Following installation, each renovated green undergoes dedicated maintenance, including regular rolling, mowing, foliar treatment, topdressing, and fertilisation. With encouraging progress recorded across the renovated areas, the programme represents an important investment in the Club's golf course standards. Through continuous improvement and careful attention to detail, HHGCC continues to elevate the golfing experience for members and guests.
